- 100% Pure
- Safe
- Biocompatible

INNOAESTHETICS

Beyond Polynucleotides: COMPLETE SKIN RENEWAL

PDRN has returned to the forefront of regenerative aesthetics for its proven ability to **repair tissue, restore elasticity, and revitalize the skin.**

INNO-TDS® DNA PEPT-HA, one of INNOAESTHETICS' best-selling formulations for more than a decade, combines **PDRN with hyaluronic acid, biomimetic peptides, and glutathione** in a unique 4-in-1 synergy that enhances **regeneration, hydration, and protection.**

INNOAESTHETICS also provides professionals with exclusive application techniques and protocols designed to further optimize the efficacy of DNA PEPT-HA and help physicians stand out in their practice.

KEY BENEFITS

- Repairs damaged cells
- Reduces inflammation
- Provides deep hydration
- Stimulates cellular renewal

DESIGNED TO TREAT

Prevent and treat early signs of aging, and support skin recovery after aesthetic procedures.

- Fine lines and superficial wrinkles
- Dehydrated, devitalized or dull skin
- Skin flaccidity, loss of tone and uneven texture

INNO-TDS®

DNA PEPT-HA

4 in 1 ACTIVE INGREDIENTS:

4 Synergistic Actives: the fuller path to regenerative skin results.

PDRN (SALMON DNA):

Cellular regeneration and tissue repair.

PEPTIDES: Boost collagen synthesis and reinforce the dermal structure.

HYALURONIC ACID:

Deep hydration and elasticity.

GLUTATHIONE: Powerful antioxidant that protects from oxidative stress.

SALMON PDRN

100% pure • Biocompatible • Safe

Biocompatible and clinically safe for all skin types.
Naturally rich in nucleotides to support cellular repair and skin regeneration.
